### Cambridge Associates Opens Australia Office to Serve Growing Global Client Base

**Boston, MA (August 1, 2007)** — Cambridge Associates, a leading provider of independent investment research and advice to institutional investors and private clients, has announced the opening of an office in Sydney, Australia. The firm's seventh office worldwide provides a local presence for its growing roster of clients in the Australasia region while furthering the firm's global expansion.

Cambridge Associates' new Sydney office is headed by Eugene Snyman, who has been conducting research and serving clients from this area for the past three years. A permanent resident of Australia, Eugene began his career at Cambridge Associates in 1998, working in the firm's London and Singapore offices before relocating to Sydney. Two consulting analysts currently join Eugene at the Sydney office, and the firm has plans to augment the staff over the next year by adding additional dedicated consulting resources.

"The opening of an office in Australia and the addition of staff signifies Cambridge Associates' long-term commitment to serving clients in this region," said Sandra A. Urie, Cambridge Associates President and CEO. "The opening of this office also supports the increasing desire of the firm's current client base to allocate funds more globally, as evidenced by the doubling of non-U.S. investments in our endowment universe's average equity allocation in the last five years. We have also found that adopting a global perspective enhances our research capabilities and broadens our services to a new geographical client base."

Founded in 1973, Cambridge Associates delivers investment consulting, independent research, and performance monitoring services to more than 800 institutional and private clients worldwide. The firm has nearly 800 employees serving its client base from seven worldwide locations, including four U.S. locations as well as London, Singapore, and Sydney. Its new Sydney office is located at Chifley Tower Level 29, 2 Chifley Square, Sydney NSW 2000, Australia; Telephone 61.2.9293.2510.
