# PREVAIL

women investing for the future

---

We are women who believe in ourselves and in each other. We believe that coming together can lead to boundless opportunity. We believe that community is essential to growing and succeeding as thought leaders in any field.

Prevail is a community of accomplished women investors who accept and face challenges head-on because we know overcoming these obstacles will lead to someplace new and rewarding. Women who prevail don't need to be empowered—we already are. Women who prevail don't need to be given a seat at the table—we already have one, and we are eager for more women to join us. Women who prevail have exciting stories and ideas and are willing to share them.

In our community, we listen closely to each other to learn from one another. We create opportunities and find solutions. We aim to broaden the path paved by others before us. We believe that success is a collective effort, but we want more contributors. We believe that together, our combined talent, dedication, and persistence create an undeniable collective force. Together, we prevail.
