Notes: The return is a 1-quarter IRR calculation based on data compiled from venture capital funds, including fully liquidated partnerships, formed between 1981 and 2022. All returns are calculated in U.S. Dollars unless otherwise noted. Preliminary asset class returns are displayed when at least 50% of the number of active funds and prior period's NAVs have been updated.

¹Percent of active funds updated, as a percentage of the prior quarter's NAV.
